Local Jottings

Mrs. Shore, wife of Dr. Shore of Alix was a visitor with Mr. and Mrs. J. L. Bernard on the 16th inst.

A. McLean our local cattle dealer shipped a carload of beef cattle to Calgary on the 15th inst.

The dance held in Mc Cues Hall on Monday night the 14th inst. under the auspices of Miss D. McDermott and O. Anderson, was a decided success. There were about forty persons in attendance. Dancing kept up until a late hour. Refreshments were served at midnight.

The annual convention of the teachers of the High River, Olds and Calgary on Thursday and Friday, October 24th and 25th. Besides the discussion of important school topics, the convention will be addressed by Dr. Dyde of Robertson College, Edmonton, Dr. Braithwaite of Calgary University and T. B. Kidner, Director of Technical Education, Calgary.

T Hunter and C. Clark were visitors with Mr and Mrs. F. H. Hunter on Saturday, last the 12th inst.

N. Boggs and friend of Saskatoon were visiting with J. Boggs, Red Lodge, this week.

A large number of friends and relatives of Mr. Wm. Morfitt of Bowden, gave a surprise party at his house on Monday evening the 14th inst. The occasion being given in honor of Mr. Wm. Morfitt's Golden Wedding day. During the evening games, were mostly indulged in by the younger people present while Mr. Morfitt himself along with several other old timers related numerous experiences of the early days in the province.

This most enjoyable evening was brought to a close in the wee sma' hours of the morning; everyone expressing their gratitude of having been present on this particular occasion, and widely expressed their selves toward Mr. Morfitt on having the pleasure of meeting him on his Golden Wedding day, and further wishing him many more years of happy married life amongst them.

Holy Communion was held in the St Matthews Church, Bowden on the 13th inst. The Rev. J. Cartledge officiating. This was the first morning service held in the above mentioned church for a number of years, and the countenances of the people in leaving at the close plainly showed how thoroughly it had been appreciated.

E. Mumford, Edmonton, has been visiting friends in Bowden this week.

CHAPTER XXXIII
The Other Claimant

Lady Clavel!
What did the man mean?
Susan Jessop looked thunderstruck. Granmer Jessop put her hands to her ears and made a few trembling steps in the direction of her own door.
An' he has the Clavel eyes, too! she muttered indistinctly. The world seems full of 'em!

Harry watched and listened in dead silence, intent upon seeing out this interlude, which he guessed to have a direct bearing upon his own position. Presently Susan recovered her composure.

There's no such name known here, she said, and made as though she would lead the way for Harry back into the garden. Shall I send Anning to put up your horse in the stable, sir? she asked the latter.

Before Harry could reply the strange young man spoke again to Susan.

What you last said to me was a lie, he observed. Can't you see that I mean to get in here, and that I have a right to do so? I have known Lady Anne for years, and if you have any sense you will take me to her now!

That I shall not, sir! Susan exclaimed growing crimson with anger. Very well. Then I will send a message to your mistress and wait here until you come back to fetch me at her orders.

He took a notebook and pencil from his pocket, and, tearing out a leaf, wrote a few words upon it. Then he asked for an envelope, and putting the message inside, he fastened it up, and directed it to Lady Anne Daubeneey.

If you'd like a bet, he observed impudently to Harry as the latter was following Susan through the gate. I'll lay you a hundred to one that when Lady Anne reads this she will send the girl back for me like a shot. I know a lot more about Lady Anne than you will ever guess at.

Harry's fists quivered with longing to knock the man down, but he could only affect not to notice his impertinence as he passed within the precincts of the Abbey.

The sky had been growing gradually darker during the last few minutes under a bank of black clouds fringed with a jagged sulphurous edge, and in the tall elms round about the house the birds were holding a nervous, twittering parliament. At every moment the heat became more clammy and oppressive; the air was full of electricity, hardly a leaf stirred, and nature seemed to be waiting, holding back breath for the outbreak of the storm.

All the doors and windows of the house were open, but by the time

WOULD SCREAM FOR HOURS WITH ECZEMA

Baby Dreadful Sufferer; Could Not Keep Him from Scratching. Every Joint Affected. Used Cuticura Soap and Ointment and He Is Well.

"Enclosed find my son's photo and I feel by writing these few lines to you I am only doing my duty, as my son was a dreadful sufferer from eczema. At the age of two weeks he began to get covered with red spots on his legs and groins, which mother thought was red gum or thrush; but day by day it grew worse until every joint and crevice were affected and baby started screaming for hours day and night, such a thing as sleep was out of the question. I took him to two of Sydney's leading doctors; one said it was one of the worst cases he had seen, the other did not think it so serious; one ordered ointment for rubbing in, the other a dusting powder. I followed their prescriptions for over four months and still baby kept getting worse. I could not keep him from scratching so great was his agony."

"When he was five months old I tried the Cuticura Remedies and I am very thankful to say my baby is to-day free from all his suffering. His groins were bleeding when I started and other parts affected were the lower part of his body under the knees, arms, in armpits, eyebrows and neck; but after twice using Cuticura Ointment I began to see a difference and by the time I had used one tin, along with the bathing with Cuticura Soap, baby was nearly cured. I still kept on using the Cuticura Soap and Ointment, and now, thank goodness, he is quite well and, although he is now ten months old, has not had any further return of the trouble." (Signed) Mrs. G. Martin, 2 Knight St., Eskineville, Sydney, N.S.W., Mar. 31, 1911. Cuticura Soap and Ointment are sold throughout the world, but a liberal sample of each, with a 22-page book on the care and treatment of the skin and hair will be sent free on application to Fetter Drug & Chem. Co., 60 Columbus Ave., Boston, U.S.A.

SCOTT, HILL AND CO.

22 Canada Life Building.

Winnipeg, Man.

Harry entered the drawing-room it had become so dark that he could hardly distinguish the two white-clad figures seated near the tea-table as he came in from the open air.

You must help me to reassure Miss Morgan, Lady Anne said as she gave Harry her hand. It appears that she is horribly afraid of thunderstorms, and I fear we are going to have a very bad one.

It is absurd of me, Lillas declared with a nervous break in her voice. I was born during a thunderstorm, but they send me half-mad with fright. The only thing I can do is to put my head on a pillow and hold it over my ears. But perhaps this will pass over. Do tell me, have you got rid of that horrid man?

Susan is bringing a message from him, Harry explained.

The girl entered the drawing-room at that moment, having stopped on the way to speak to George Anning about Harry's horse, and she presented the letter to her mistress on a salver.

Lady Anne glanced at it disdainfully.

Some odious little bounder who says he has more right here than I have, Miss Morgan tells me, she said as she tore open the envelope. He must be—

She stopped short suddenly. The bounder's message had met her eyes and brought into them a look of astonishment and fear. She grew pale and remained silent for a few moments. Then she addressed Harry.

Did you not tell me this man was like you? she asked.

I suppose he was, a little, though I am not proud of it.

Dark, and rather Jewish-looking, you told me?

Yes?

Lady Anne drew a deep breath. Then she turned to Susan Jessop.

Bring the person who gave you this message in here, she said.

Susan longed to utter a scandalized protest, but did not dare. As soon as she had departed to perform her unbecoming errand, Harry put in a word of remonstrance.

You cannot guess, I am sure, he said, how offensive this man was in manner and in words. He pretended to know you—

He does.

And to be master here.

He may be.

Harry bowed coldly.

Forgive me for interfering, he said. I did not understand.

She placed in his hand the leaf from the notebook.

You can read it, she said. Miss Morgan will excuse us, I know.

The words Harry read were as follows—

Dear Anne—

I have not met you for a good many years, but if you remember Marion you will know me as her eldest son, and understand my natural wish to see Lady Clavel.

What does it mean? asked Harry.

If you are Henry Clavel's son, this man is your cousin.

A Clavel?

No. The son of Marion Clavel, who became Lady Symonds.

Shall you see him?

How can I refuse?

But he says the place belongs to him.

She looked at him intently with a strange shining in her luminous blue eyes.

So it would belong to him, she said slowly, but for you.

For me?

CENTRAL TELEGRAPH AND RAILROAD SCHOOL

This school is located in Toronto and does much each year to supply the active demand for Telegraph operators wanted by our Canadian railways. A successful record of fifteen years and hundreds of officials and operators in active railway service today is the best guarantee of the reliability of this well known school. The book "Guided by the Key" explains the work fully. Write for it. Address W. H. Shaw, President, Toronto.

Lotteries in the United Kingdom were abolished in 1826.

Regularity

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels. Dr. Morse's Indian Root Pills—entirely vegetable—regulate the bowels effectively without weakening, sickening or griping. Use

Dr. Morse's
Indian Root Pills

More About
The Loading Platform

The present generation of Western farmers will never know the difficulties and vexations experienced by their predecessors in the earlier years when no one could get a carload of grain shipped in bulk except by loading it through an elevator. The system forced the majority of farmers to sell their grain to the elevator owners at arbitrary prices, and oftentimes to submit to heavy dockage and other annoyances, causing continual dissatisfaction. Now however the distribution of grain is fixed by the Grain Act, and the use of the loading platform, provide facilities which enable the farmer to secure satisfactory treatment in the disposal of his grain, and the highest market prices at time of sale. Every farmer therefore, should more and more endeavor to use the loading platform in shipping his grain to the terminal elevators. It is the safeguard of the farmer's freedom in disposing of his grain to the best advantage for himself. If farmers refrain from using the loading platform freely, it might result in its being done away with, because railway companies and elevator owners are strongly opposed to it. It is easy to understand why elevator people desire the loading platform abolished. The railway people on their part say it delays the loading of cars and helps to cause car shortage. This we know to be nonsense, because frequently after cars are loaded whether with grain, coal, lumber or other merchandise, they are sidetracked for days and even weeks instead of being promptly moved forward to destination. It is engine shortage and shortage of competent train men that mostly causes grain blockades on railways and not lack of cars. Let every farmer therefore, do all he can to use the loading platform and become an independent shipper. In subsequent advertisements we will state in detail the savings and other advantages of direct loading into cars compared with loading through elevators.

We handle the farmers grain strictly on commission, make liberal advances on car bills of lading, supervise the grading at time cars are inspected, secure the highest prices at time of sale and make prompt returns when sold. Write us for shipping instructions and market information.

KIDNEY PAINS IN THE BACK

COULD NOT STAND OR EVEN TURN IN BED—LEGS GREATLY SWOLLEN

All Doctor's Medicine Failed—Cure Effected by Use of

DR. CHASE'S KIDNEY-LIVER PILLS.

Again this great medicine has triumphed over kidney diseases of a severe type. From a bed of suffering and helplessness Mrs. Walsh was restored to health and strength by using Dr. Chase's Kidney-Liver Pills.

Kidney pains in the back tortured her. Dropsical swellings had set in and she had no reason to hope for cure, since the doctor's medicine failed to even relieve her. Read what the husband says about this remarkable cure.

Mr. Thos. D. Walsh, Pictou, N.S., writes:—"Two years ago my wife took to her bed after suffering for a long time from kidney pains in the back. She was not able to stand on her feet or even turn herself in bed. The doctor's medicine was no benefit whatever, that we could see. Sometimes her legs would swell considerably. Reading about a woman in similar condition, being cured by Dr. Chase's Kidney-Liver Pills, we purchased two boxes and when these were used she was able to sit up. With three more boxes she was restored to health and doing her own housework."

As for myself I also found these pills all that is claimed for them. I give this statement in order that others may obtain the same ease from suffering as that experienced by my wife and myself."

One pill a dose, 25c. a box, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

Now under construction, the super-Dreadnought Delhi will carry 13.5 guns, throwing a shell of 1,400lb.

Minard's Liniment for sale everywhere

It one be troubled with corns and warts, he will find in Holloway's Corn Cure an application that will entirely relieve suffering.

Thirteen Hebrew or Yiddish papers are published in New York, three of them being dailies.

IT'S THE FOOD
The True Way to Correct Nervous Troubles

Nervous troubles are more often caused by improper food and indigestion than most people imagine. Even doctors sometimes overlook this fact. A man says:

"Until two years ago waffles and butter with meat and gravy were the main features of my breakfast. Finally dyspepsia came on and I found myself in a bad condition, worse in the morning than any other time. I would have a full, sick feeling in my stomach, with pains in my heart, sides and head."

"At times I would have no appetite for days, then I would feel ravenous, never satisfied when I did eat and so nervous I felt like shrieking at the top of my voice. I lost flesh badly and hardly knew which way to turn until one day I bought a box of Grape-Nuts food to see if I could eat that. I tried it without telling the doctor, and liked it fine; made me feel as if I had something to eat that was satisfying and still I didn't have that heaviness that I had felt after eating any other food."

"I hadn't drank any coffee then in five weeks. I kept on with the Grape-Nuts and in a month and a half I had gained 15 pounds, could eat almost anything I wanted, didn't feel badly after eating and my nervousness was all gone. It's a pleasure to be well again."

Name given by Canadian Postum Co., Windsor, Ont. Read the book, "The Road to Wellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Human Nature
Muggins—I suppose it is human nature to sympathize with the under dog.

Write for the "Concrete Book"

IN Canada, where the winters are long and cold, houses must be solid and substantial. No "gingerbread frills," such as distinguish California bungalows, can be permitted. Canadian homes should be built to defy wind and cold, to keep warm inside when it's thirty below out-doors.

IT is because Concrete, of all materials, best withstands wind, water and cold, that it is fast becoming popular with Canadian home-builders. Concrete houses are warm in winter, requiring less coal for heating; they are cool in summer. A Concrete house never needs repairs; because, instead of decaying, it actually grows stronger with time and exposure to the elements.

VERY attractive architectural effects may be obtained with Concrete, especially for houses in the country, where the rough concrete surface harmonizes with its surroundings.

SINCE it never requires repairs, the first cost of a concrete residence is its last cost; and it is cheaper, for this reason, than any other kind of house.

NOT only is Concrete the best material for house-building. It may also be used in scores of other ways around the home and on the farm. For each of these purposes it is the best material known.

If you haven't investigated the use of Concrete around the home and on the farm, write now for our free book, which tells all about the mixing and placing of Concrete, and describes hundreds of practical uses for it. Just say "Send me your book" in a letter or on a postcard, and the book will be sent you absolutely free.

We have a free Information Department that will answer all your questions relating to Cement, without cost or obligation.

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or sore, such injury is insured against blood poisoning! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Company and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

DANGER PERIOD OF WOMAN'S LIFE FROM 45 to 50

Interesting Experience of Two Women—Their Statements Worth Reading.

White Oak, Ont.—"At Change of Life when doctors could do no more and I was given up by my friends, Lydia E. Pinkham's Vegetable Compound came to the front and did wonders for me. I had been having female troubles for years, my head troubled me severely at times, I had bearing down pains and back-ache and I was very anemic from excessive flowing. I recommend your Compound highly and do all I can to advertise it as a genuine woman's medicine."—Mrs. SYLVESTER MANNING, White Oak, Ontario.

The Case of Mrs. Kirilin.

Circleville, Ohio.—"I can truthfully say that I never had anything do me so much good during Change of Life as Lydia E. Pinkham's Vegetable Compound. 'Before I had taken one half a bottle of it I began to feel better, and I have continued taking it. My health is better than it has been for several years. If all women would take it they would escape untold pain and misery at this time of life.'—Mrs. ALICE KIRILIN, 358 W. Mill St., Circleville, Ohio.

The Change of Life is one of the most critical periods of a woman's existence. At such times women may rely upon Lydia E. Pinkham's Vegetable Compound.

W. N. U. 919

Not Disturbed

Two spiders who dwell in different parts of a church one day chanced to meet and got into deep conversation, and asked one another where they lived.

I live under the pulpit, said No. 1, and every week I always think I shall be getting killed; the parson bangs his hand down, and I have to get into the smallest corner I can find for fear of getting squashed.

Oh, said No. 2, you ought to come and live with me. I never get disturbed from one year's end to another.

Why, where do you live? asked No. 1.

I live in the poor box.

It Will Cure a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly, and will strengthen them against subsequent attack. And as it eases the inflammation it will stop the cough because it allays all irritation in the throat. Try it and prove it.

Formerly the duties of the Lord Chancellor were those of a doorkeeper, who admitted suitors into the presence of the King.

Minard's Liniment Cures Dandruff.

All trainers, jockeys, and apprentices must take out racing licenses issued by the Jockey Club and when a foreign jockey rides in England he must obtain what is known as a temporary license.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy; and years of use have enhanced its reputation.

China possesses a coal-field with an area of 21,000 square miles.

WORK AND WORRY WEAKEN WOMEN

New Health and Strength Obtained by the Use of Dr. Williams' Pink Pills.

It is useless to tell a hard-working woman to take life easily and not to worry. Every woman at the head of a home; every girl in offices, shops and factories, is subject to more or less worry. These cannot be avoided. But it is the duty of every woman and every girl to save her strength as much as possible and to build up her system to meet any unusual demands. Her future health depends upon it. To guard against a breakdown in health the blood must be kept rich, red and pure. Nothing can keep the blood in this condition so well as Dr. Williams' Pink Pills. They strengthen the nerves, restore the appetite, bring the glow of health to pallid cheeks, and renewed energy to listless people. Women cannot always rest when they should, but they can keep their strength and keep disease away by the occasional use of Dr. Williams' Pink Pills. Or if a breakdown has come unexpectedly they can obtain new health through this same medicine. Mrs. M. Thomas, Iver Street, Toronto, says: "For several years I was almost a constant invalid, unable to do my housework and spending much of my time in bed. My nerves seemed worn out and I was so run down that all my friends thought I was in a hopeless decline. I was as pale as a corpse; I was so bloodless that if I cut my finger it would not bleed; my limbs were swollen far beyond their usual size. At the least exertion my heart would palpitate violently, and I frequently had fainting spells. I was under treatment by good doctors, but it did me no good. Then one day my husband brought home some Dr. Williams' Pink Pills and I began taking them. They seemed to go to the root of the trouble, and in the course of a few weeks the improvement they were making was quite plain. Gradually as I continued taking the Pills the swelling of my limbs disappeared; the weak spells came less and less frequently; my appetite greatly improved, and finally I was completely cured and able to do my housework with ease. Later, my daughter Alma seemed to be troubled with anaemia, and we gave her the Pills with the same good results."

Why suffer in any way when you can begin curing yourself to-day with Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The largest pyramid in Egypt contains 90,000,000 cubic feet of stone.

Pills That Have Benefited Thousands.—Known far and near as a sure remedy in the treatment of indigestion and all derangements of the stomach, liver and kidneys, Parle's Vegetable Pills have brought relief to thousands when other specifics have failed. Innumerable testimonials can be produced to establish the truth of this assertion. Once tried they will be found superior to all other pills in the treatment of the ailments for which they are prescribed.

France produces upwards of 500,000 pounds' worth of oysters every year.

LET MOONEY DO IT

NO BURNED BREAD

NO SCORCHED BISCUITS

No need to apologize to family or guest when MOONEY does it. MOONEY'S BISCUITS are always right — every biscuit inspected before it is packed—and they are as fresh as the product of your own oven.

MOONEY'S PERFECTION SODA BISCUITS

are the great favorites for every day use.

They are made in the big sanitary factory in Winnipeg and come to you in air-tight packages or in sealed tins as you prefer.

MOVEMENT OF GRAIN

RAILWAY OFFICIALS SAY GRAIN IS GOING OUT QUICKLY

It is stated that there are plenty of cars as yet available, and farmers are delivering grain so promptly that there is little delay in loading.

Winnipeg.—The fine threshing weather of the past week has caused a big stir in the movement of wheat to the lakes from all parts of the west. Although now nearly three weeks behind the normal record, there is every evidence of prompt removal of the grain with very little delay of congestion, according to the railway freight staff in departments of the various railroads. There are plenty of cars in waiting and the farmers are sending their grain so promptly, both to the platform and to the elevators that there is very little delay in loading.

There has been little or nothing done in the matter of shipping a part of the crop through Duluth in order to get it to the seaboard without delay, but it is understood that during this week, when the shipping is in full swing and the estimates can be taken in the different districts as to the volume to be moved, some sort of arrangement will be made by which Duluth will handle the surplus of the eastbound grain. The farmers are working night and day at the platforms, and the break is about even with last year as to the platform loading. The elevators are pouring their golden treasures directly into the cars and the returns so far this year show that this method of disposing of the crop is as popular as ever.

On October 1 the three provinces, Manitoba, Saskatchewan and Alberta, on the C.P.R. lines, loaded 597 cars of grain.

Last year on the same day 384 cars were loaded, an increase of 213 cars. 156 of these cars were loaded by the farmers direct and last year only 56 cars were loaded from the platform in the output of the days.

It is difficult to state just which method is the more popular, as the districts and roads have to be considered in getting the grain to the nearest point of transportation.

The output of Manitoba from September first up to Oct. 1, this year was 299 cars, out of which 161 cars were loaded from the elevators.

Last year, during the same period, there were loaded 167 cars, 138 from elevators and 29 from the platform.

In Saskatchewan this year up to October first, 1,855 cars were shipped. The figures show all the way through a bigger month for September this year than last, and although the Manitoba demand has fallen off there is a big increase from the district around Saskatoon.

Up to Oct. 1, the C.N.R. have loaded and unloaded under orders 1,161 cars at the elevators and 1,879 cars at the platform stations along their lines.

As most of this demand comes from Saskatchewan there is every reason to believe that the output from this province will far surpass the estimate of the most optimistic.

The officials in charge of the transportation of the grain on all the roads through the agricultural districts of the west are most optimistic over the ease with which the crop will be moved.

Unlike work in previous years, the threshing operations have taken place in sections. Where these operations were furthest advanced there the cars were placed in greatest numbers.

JUDGE REFUSES TO FIGHT

Decision of a German Court of Honor is Ignored

Berlin.—Judge Knittel, who has been challenged by Captain Kammier to fight him, has declined the invitation without assigning any reasons.

It will be remembered that in a recent trial for libel the court decided that Judge Knittel was justified in declaring Captain Kammier a malicious imbecile, and that in consequence Captain Kammier was obliged by a military court of honor to challenge Knittel, who besides being a judge, is an officer of the reserve.

Much curiosity is felt as to the next step to be taken by the court of honor, and whether it will proceed to force Judge Knittel to sever his connection with the army on the ground that he has refused to permit himself to be shot at.

Would Protect Eskimos

Ottawa.—Dr. Stefansson is expected in Ottawa within a few days to report to R. M. W. Brock, of the geological survey, on his discoveries in the Coronation Gulf. Dr. Stefansson is the discoverer of the Blonde Eskimos in that new region and is desirous of keeping civilized people away from them for fear that disease will be taken in and wipe them out.

Dr. Stefansson was engaged by the American Museum of Natural History and the geological survey of Canada, to make the trip. His reports promise to be exceptionally interesting and useful.

Great Crime of West

London, Ont.—Lieut.-Col. Gartschke, general manager of the McClary Manufacturing Company, back from a trip to the Coast, criticized the booming of the Prairie real estate.

The great crime of the West is the exploitation of impossible city sites, he declared.

NEW OFFICE FOR FOSTER

Suggested as Canada's Diplomatic Agent in London, England

Ottawa.—Hon. Geo. E. Foster, who is again on his way back to England, for another two-months' stay there, on Imperial business, may have his headquarters established there permanently. Mr. Foster is slated to fill the office of Canada's Imperial minister as proposed in Premier Borden's scheme for a more direct representation of Canada in Imperial affairs at London. It is understood that the suggestion has been directly made to him that he become Canada's diplomatic agent and general representative in London with a salary of \$15,000 per year.

The present scheme is to extend the scope and importance of the High Commissioner's office by giving it semi-diplomatic and advisory or consultative functions in relation to the Imperial government. As successor to Lord Strathcona, whose retirement may be expected next year, Sir Hugh Graham and Sir Edmund Walker have been mentioned, but, under the new proposals, Mr. Foster, by reason of his political experience and training and aptitude for the larger problem of politics has undoubtedly superior claims for the post. He would act as the medium for the exchange of confidential information on matters of state, affecting the interest of the mutual interests of Canada and Great Britain, whether in relation to trade or defence and would have in London an advisory and consultative capacity. This proposal was broached by Premier Borden in London, last July, and is part of the government's permanent policy.

As a preliminary to Canada's representation in London steps are now being completed for the purchase of a site for a magnificent Canadian office near Westminster Abbey and adjacent to the houses of parliament. Work on the new building will be begun next year. To further supplement the proposed salary of \$15,000 for Mr. Foster, an official residence with allowances in the way of living expenses is suggested.

Whether or not the minister of trade and commerce will accept the position is not known. He is greatly interested in the work of his life here and likes political fighting in the commons. But it is stated on good authority, that several of his colleagues are anxious to have him take the London position and it is significant that he has been kept for the last few months well in training for it. By the end of November, this year, he will have spent four months out of this year in London and next spring as Canada's travelling ambassador he is going to Australia on trade matters.

Hon. Mr. Crothers would prefer his place as minister of trade and commerce to the labor portfolio he now holds.

RANCH INQUIRY COMMISSION

Newly Appointed Body Will Settle Problem Between Rancher and Homesteader

Winnipeg.—The new ranching investigation commission, instituted by the Dominion Government last month, to which Geo. S. Pope and Clarence F. Graham, of Winnipeg have been appointed commissioners, has commenced preliminary organization and will soon start to put on active work of collecting evidence and data.

The commission has been appointed for the purpose of dealing with the ancient strife between the cattle rancher and the homesteader, a question that has for many years been the most difficult that the United States government has had to deal with in the Western States, and which has proved almost as great a problem in Southern Alberta and Saskatchewan. The commission is expected to give a definite answer to whether grazing lands can continue to be set aside for the sole use of the cattle ranchers in Alberta and Saskatchewan, to the exclusion of homesteaders and set a definite time for the extension of the grazing reserves and of existing grazing leases from the Dominion land department.

ALBERTA RAILWAYS

Canadian Northern Rushing Work on Several Lines

Vermillion, Alberta.—Sir James Ostram, Bart, president of the Northern and Vermillion Development Company of this town, whose company has been operating in the Vermillion district, quite extensively for the past year, has just had word from General Manager McLeod, of the C.N.R., that 200 men are at work grading out from Bruderheim on the Vermillion-Bruderheim branch of which Vermillion is to be the terminus. The steel of the branch will connect with the main line of the C.N.R. a few miles west of Vermillion. Manager McLeod gave the further information that surveyors are now at work out from Vermillion on the Vermillion-Medicine Hat branch and that just as soon as their report is received, which he expected before the freezeup, grading would begin.

Students as Harvesters

Fargo, N.D.—Nearly 10,000 young men, students in Fargo's colleges, and high schools, will leave before the end of the week to take the place of laborers in harvest fields of North Dakota. In response to insistent demand for farm laborers throughout the state, school heads have agreed to allow all male students two weeks' vacation, and every student who is able will be urged to seek work on farms. Many members of the Fargo Commercial Club will also go to the fields.

THE HOME RULE BILL

AN EARNEST PLEA IS MADE FOR FULLEST DISCUSSION

Editor of the Manchester Guardian, Although an Ardent Home Ruler, Urges the Government to go Slow, and to be Ready to Offer any Reasonable Compromise.

London.—There is a possibility of the rift between the Government and the Labor party widening. Ramsay MacDonald has made the pledge that the Labor members would vote against the Government unless votes were granted to women, but it is doubtful if he could carry his party with him.

On Thursday the motion for a location of time for passing the Home Rule Bill will be considered.

The Westminster Gazette's parliamentary correspondent says it is the intention of the Government to pass this bill through the House of Commons before Christmas, and that there is no disposition on the Liberal side to criticize the drastic measures of closure necessary for putting through the debate on the bill.

On the other hand, it is significant that, in a speech at Manchester, C. P. Scott, proprietor of the Manchester Guardian which exerts the most powerful force among British Liberal newspapers, and himself an ardent Home Ruler, made an earnest plea that the Government should go slow and grant the fullest discussion of the bill and be ready to offer any reasonable compromise.

They were threatened, he said, with resistance amounting to civil war.

It was better that the bill be dropped altogether if the Government did not mean to enforce it when it became law.

HORRORS OF CUBAN ASYLUM

Men and Women Patients in Institution in State of Squalor

Havana.—Dreadful conditions among the Cuban insane confined at the National Asylum at Mazorra near this city are disclosed in a report published in El Mundo.

Upwards of 2,000 men and women from all parts of the island are kept in the institution in a state of frightful squalor, and hundreds among them are nearly naked, without beds or chairs, and provided with insufficient food of the poorest quality says the report.

The condition of the women patients is declared to be even worse than that of the men.

All classes of insane people, even the most violent, are said to be herded together in foul courts.

It has long been known that conditions at the hospital were bad, but the real state of affairs was unknown.

At the beginning of the second intervention of Cuba by the United States, the place was found in a similar condition.

After reconstruction by General Wood, it was again reorganized and remodelled at great expense by Colonel Greble of the United States Army, and at the close of the period of intervention it was in all respects a model institution.

Immediately thereafter most of the costly improvements were destroyed, says the report, and the whole institution was allowed to go to complete ruin.

Many startling pictures accompanied the report in the newspaper.

G. T. P. INSTAL TELEPHONES

All Dispatching Will be Done in This Way When Road is Equipped

Winnipeg.—Telephones will soon be installed for train dispatching throughout the entire system of the Grand Trunk Pacific Railway. The start for this system was announced recently and the first section to be equipped with telephones will be that between West Fort William and Superior Junction. This is, of course, but a beginning. It will not be long till the whole main line is equipped and as soon as that is done the entire train dispatching of the service will be standardized with latest railway operating installations.

Steamers Talk to Land, 2,400 Miles

Berlin.—A splendid achievement in wireless transmission has been made by the steamship Cordova of the Hamburg-American line. While en route to Central America the vessel remained for thirteen days in constant communication with the German wireless station at Norddeich. The maximum distance covered was 2,400 miles. The North German Lloyd steamer, Neckar, for Philadelphia, remained six and one-half days in unbroken communication with Norddeich the greatest at which messages were exchange being 1,820 miles.

U. S. Ships for Canadian Wheat

Port Arthur, Ont.—American steamboat owners and operators are making inquiries through their agents as to the number of cars of new wheat crop coming into Port Arthur and Fort William terminals, and it is not improbable that there will be a large number of American freighters assigned to the grain carrying traffic between now and the close of navigation.

Birds Invade a Bedroom

London.—Thousands of migratory birds passed over Dover yesterday, flying south, and no fewer than sixteen martins were afterwards found in a bedroom of a house on the sea front, having entered by a half-open window.

U. S. LAND LAWS

Senator Smoot Says Bad Laws One Reason for Immigration to Canada

Salt Lake.—United States Senator Smoot attacked the land laws in an address before the International Irrigation Congress.

Ever since 1906 the provision of our land laws have proven exceedingly burdensome, said the Senator. Although these laws are inadequate and work injustice, the administration of the laws is responsible largely for the burden put on the homesteaders. American settlers are emigrating by the thousands to Canada, and this proves that there is something wrong in our laws that should be rectified. The speaker declared congress had awakened to the needs of the settler and that he expected to put a stop to the exodus to Canada.

At the last session of Congress, he continued, more laws were passed liberalizing land laws than all the other congresses during the last ten years. Heretofore regulations have made it almost impossible to obtain homesteads within the forest reserves, but a law passed at the last session of Congress, I believe, will result in turning most of the twenty million acres of forest reserve lands into a agricultural homestead. National reserves should be utilized according to our present needs. I believe to conserve for unborn generations is wrong. Australia, Portugal, Persia, Guatemala, Mexico, and Canada were among the foreign nations represented at the Congress.

Grain Growers' Guide Answers Manufacturers

Winnipeg.—The Grain Growers' Guide has issued the following statement in reply to the offer of the Canadian Manufacturers association for a conference with the farmers on closer trade relations with Great Britain. The western grain growers have repeatedly declared for an increase in the British preference and eventual free trade with the motherland. If the Canadian Manufacturers association is prepared to assist the grain growers towards this end there is no doubt but that the grain growers will be glad of the assistance of the manufacturers as they realize that the manufacturers have great influence in tariff making. Free trade with the motherland would reduce the cost of living to every Canadian and blind closer the greatest overseas dominion with Great Britain.

Every loyal Canadian will be glad to know that the manufacturers association is not opposed to lower taxes on British imports. If the manufacturers association is prepared for a conference with the producers to assist in securing free trade with Great Britain in ten years, it will be a welcome message to every western grain grower.

Decrease in Homestead Entries

Ottawa.—Canada's remaining homestead lands in the west have begun to show evidence of depletion in regard to their availability and attractiveness for new settlers. The settlers now going in, though even more numerous than last year, are taking up in the aggregate more of the land by purchase than by homesteading. The most accessible free land districts were taken up by the rush of homesteaders during the past decade. For the first seven months of the year the number of homestead entries made in the western provinces has totalled 22,707 a decrease of 1,245 as compared with the first seven months of last year. Homestead entries in Manitoba for the seven months totalled 1,848, an increase of 309. In Saskatchewan, the entries for the seven months totalled 11,699, a decrease of 1,246. In Alberta the total this year was 8,874, a decrease of 307. British Columbia homesteads taken up during the seven months totalled only 180.

Manitoba to Mexico Road is Being Projected

Benidji, Minn.—In a bulletin just issued by J. M. Wiley on the construction of a Canada to the sea railroad to be known as the Mexican Gulf and Manitoba, shows that the report that surveys actually are under way was correct.

Beginning at Baton Rouge the line is to come directly north striking Minnesota at Leroy, continuing to Minneapolis, then north to Princeton, Brainerd and Grand Rapids, Mallard, Alida, Bagley, Clearbrook and on to Winnipeg.

It is believed that the surveying parties now at work in this stretch of the proposed line are working in harmony with the Minneapolis and St. Louis, which road it is believed will begin actual construction to the border line within the next few months.

Queen Victoria's Diary

London.—The diary of Queen Victoria, from the age of 13 until her marriage, will be published in November by John Murray, who says:

This diary will reveal the intimate domestic side of the Queen's life when a girl.

Exceedingly interesting are the records of her conversations with Lord Melbourne, who gave the Queen her first lesson in statesmanship. The book will also contain sketches drawn by the Queen when a girl of well known people of that time. The diary has been edited by Lord Esher.

THE SUNDAY SCHOOL

LESSON II.—FOURTH QUARTER FOR OCT. 13, 1912

Text of the Lesson, Mark vii, 1-13.

Memory Verses, 5, 6—Golden Text, Rom. xiv, 17.—Commentary Prepared by Rev. D. M. Stearns.

Taking up the incidents between the last lesson and this one we note that because they did not consider His wondrous works, such as the feeding of the thousands, they were amazed at His stilling the storm and walking on the sea. That was Israel's trouble all through, and it is ours; we do not consider, or if we do it is ourselves or our circumstances or people and not Him who should occupy all our thoughts (vs. 5, 6, Heb. iii, 1; xii, 3). In chap. vi, 53-56, what a multitude of sick folks gather unto Him, see the streets in the villages filled with them, all hoping that He would pass near enough for them to touch the border of His garment; how beautiful to read that "as many as touched Him were made whole."

Then follows the great discourse on the bread of life, the bread which came down from Heaven, even Himself; and His reply to the question, "What shall we do that we might work the works of God?" In considering His reply remember that believing means receiving (John i, 12) or committing oneself unto Him (John ii, 24). I am continually helped by John vi, 57, "As the living Father hath sent Me, and I live by the Father, so he that eateth Me even he shall live by Me." Also verse 63, The words that I speak unto you, they are spirit and they are life." To many even among true believers, He and His words are still hidden manna of which they have not yet tasted the sweetness or having no spiritual appetite they loathe the heavenly food. They have life, having Him, but not abundant life.

There were many in His day, as there were also in the days of the prophets and as there are in our own time, whose religion is wholly outward, simply a matter of externals, of outward forms and ceremonies—they are referred to in verse 6 of our lesson in quotation from Isaiah. Let us hear two quotations from the prophets concerning them. "This people draw near Me with their mouth and with their lips do honor me, but have removed their heart far from Me, and their fear toward Me is taught by the precept of men." "They come unto thee as the people cometh, and they sit before thee as my people, and they hear thy words but they will not do them, for with their mouth they slew much love, but their heart goeth after their covetousness" (Isa. xxix, 13; Ezek. xxxiii, 31). In addition to what our Lord said about them in this lesson He said elsewhere, "All their works they do for to be seen of men." "Ye make clean the outside of the cup and of the platter, but within are full of extortion and excess." "Ye outwardly appear righteous unto men, but within are full of hypocrisy and iniquity" (Matt. xxiii, 5, 25-28). These are the men who, in the lesson for today, find fault with Christ and His disciples for not practicing the many outward washings of their religion. There are multitudes of such formalists still who are very religious, but it is all outward, and they know not the true God, who searcheth hearts (1 Sam. xvi, 7; 1 Chron. xxviii, 9; Jer. xvii, 10; Rev. ii, 23). In II Tim. iii, 1-5, we read that the end of this age will be characterized by a form of godliness without any power, and truly it is already visible enough and tending to a greater manifestation of the same.

Inasmuch as it was foretold that it would be so, we are not surprised at it, and rejoice that He cannot fail nor be discouraged (Isa. xlii, 4), but the question may well search us. Am I real in my life, living before God rather than men and studying to show myself approved unto God (II Tim. ii, 15; 11 Cor. v, 9). Our Lord desires a holy people, a people meet for his use (1 Peter, i, 15, 16; II Tim. ii, 21), but the cleansing must be inward, by His spirit and His word applying the blood (Ps. ii, 10; Rom. xii, 2; John xvii, 17; Eph. v, 25, 26). This matter of defilement by unwashed hands is briefly and decidedly disposed of by our Lord in these words, "To eat with unwashed hands defileth not a man" (Matt. xv, 20). In Matt. xv, ii, and verse 15, of our lesson we learn that what cometh out of the mouth, not that which goeth into the mouth, defileth a person, for out of the abundance of the heart the mouth speaketh, and out of the evil heart proceedeth all evil deeds and words (vs. 20-23; Matt. xii, 34).

No mere outward religion is of any eternal value, but may be of some benefit as far as this present world is concerned. The great cry of today about the uplift of the race, the Christianizing of nations, making an end of war, etc., is all from the proud, foolish heart of man, without any reference to the great Prince of Peace, who alone can bring peace. All mere human effort as well as all people who are not God's planting must be rooted up, overthrown, broken to pieces, and He who created all things by His word shall bring peace on earth by His word. He will speak peace. His word will do it, as it will also slay the wicked (Ps. lxxxv, 8; xvi, 9; Isa. xl, 4). Only by his word and His spirit revealing Himself can He give peace to any individual, but to any one who receiveth Him He becomes peace indeed, life indeed, eternal redemption.

PURE PAINT

You buy paint to best advantage when you get M-L Paint, because it saves time—spreads so easy. Saves cost—a little covers so much surface. Saves bother—all ready to use. Saves expense—repainting not necessary for longest possible time.

M-L Pure Paint is made in 47 colors for all purposes by Imperial Varnish & Color Co., Ltd., Toronto. Make your walls artistic with the washable, durable, sanitary M-L Flat Wall Colors, 16 shades.
